Dear John,

I wanted to take the time to drop you a line and thank you for your efforts in getting both the Pizzeria and the Osteria up and running. It was a daunting task to decide on a contractor for this project since we were coming out of New York and had little more than references on builders local to LA. We are glad we made the choice to use CalAsia.

You helped us get the permit through the city early, worked well with the local architect of record and aided Lisa our designer throughout the process. There were changes and additions made and we found CalAsia to be helpful in vetting out problems and executing the changes with minimal headaches.

We have since referred CalAsia to other associates going to LA and would gladly do so on the future.

Thank you again John, Sean, Mario and the gang.
