

ANTHONY ECKELBERRY  
ARCHITECT

October 27, 2004

RE: John Murawski

To Whom It May Concern:

As an architect, I have worked with John for a number of years on project with Cal-Asia and when he was working in another contracting firm.

I have found him to be consistently a pleasure to work with and very professional in contracting work.

He takes care in the bidding phase to see what may cost the client extra down the line, and when we are under construction he makes sure issues that come up are taken care of in a real team spirit. The projects his firm takes on end up built as intended by the design.

I heartily recommend John Murawski and his company. Please feel free to call me with any questions.

Sincerely,

Anthony Eckelberry  
Architect
