Re: Cal Asia Construction

To Whom It May Concern:

I have been using John Murawski and Cal Asia Construction for approximately four years for various small projects. The largest and most significant assignment involved the reconstruction of a retail storefront building on North La Brea Avenue. This job was completed on time and on budget.

Subsequently, John has completed several remodel and repair projects in both retail and residential condominium structures. The work is always handled in a professional and dependable manner.

I expect to continue to use Cal Asia in the future because I have found them to be:

- Honest and trustworthy
- Dependable
- Competitively priced
- Professional workmanship

If you have any questions, you're welcome to contact me.

Sincerely,

Barry Baker
