Dear John,

I just wanted to drop you a note and thank you for all the hard work that you and your staff put in on my two projects. As I have already told you after going through the construction of Pasadena and Beverly Hills I am convinced that I made the right choice in choosing CALASIA and I will definitely be using you on all of my future projects.

Each of your project superintendents were top notch and knew what they were doing every step of the way. Dave Graffam in particular was very helpful. I have called him four or five times since we have been open with requests for little favors and Dave has always been right on the spot. He has come to the site and handled everything I needed.

If ever you need a reference please feel free to give out my name.

Very Sincerely,
