John,

I wanted to take this opportunity to drop you a note of appreciation for the job your team did on Toscanova at The Commons in Calabasas. Firstly I was impressed with the detailed proposal you presented and then your willingness and ability to deal with the value engineering needed to meet my budget.

We are very happy with the quality of the final product and were impressed that we got the project completed together in the scheduled time we had set. There were many issues with the existing restaurant which had been abused for ten years prior to us going in. There were many opportunities for added costs due to these existing conditions but your staff was fair and worked with our team to keep costs to a minimum.

I would be glad to discuss your firm with anyone you care to send my way and I look forward to the next opportunity to work with you and your team. Steve and Brian were both great!

Best,
