

To Whom it may concern:

"We had a great experience with CalAsia as our contractor for Trattoria Neapolis. Our's was a very complicated total remodel with a high level of design and the kind of surprises one finds in an older building. CalAsia gave us a great deal of support all the way through from the initial budgeting through the qualifying, pricing, and hiring of subs, through the construction process and in the final punch list. They did a good job of troubleshooting when issues arose. CalAsia helped us find savings where it made sense to do so while maintaining the quality we wanted. They performed very well on the schedule. Their people were very professional. I would strongly recommend them to someone else looking to build or remodel a restaurant."

Best Regards,

Perry Vidalakis
