Dear John Murawski,

I wanted to write to thank Cal Asia for doing such a stellar job on the execution of the Venice Wurstküche. Your team was incredibly efficient, stayed on point, and CRANKED until the very end. I always felt that Cal Asia was aggressively vying for my best interest in negotiating cost, quality, and timeliness. You've got a talented team of energetic and flexible contractors and craftsmen that get the job done like they say & when they say. I know that Cal Asia saved us time and money all while giving us a great final product. Look forward to building the next one with your team.

Thanks for all your hard work,

Joseph Pitruzzelli
