Re: Salon Build-out #4

Dear John:

It is with great enthusiasm that I write this letter of gratitude for the outstanding work your team put forth on our latest salon project. The entire team should be commended for the amazing level of attention to detail, craftsmanship, and professionalism. I appreciate the sacrifices made by your staff and the construction professionals you contracted in order to expedite the completion of our project.

This is the 4th project we've worked on together. I credit your firm as a component to our recipe for success, and I look forward to working on many more salons with CALASIA Construction in the future.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Thurston", with a long horizontal flourish extending to the right.

David Thurston
President
